# IN THE MONEY MARKET

ALL INTEREST CENTERS IN THE SPECULATIVE WORLD.

Stringency in London Financial Circles Shown by the War Loan Distribution-Dull Week Locally.

At New York Saturday money on call was nominal at 1@1% per cent.

Prime mercantile paper, 4@5 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.87%@ 4.87% for demand, and \$4.84 for sixty days; posted rates, \$4.85@4.85% and \$4.89; commer-

cial bills, \$4.831/2@4.8334. Silver certificates were 611/2/0621/2c; bar silver. 60%c; Mexican dollars, 48%c. Silver

bars sold at 28d an ounce in London. Imports of specie at the port of New York were \$16,566 in gold for the week, and \$100,350 in silver. Exports were \$672,213 in silver bars and coin and \$7,898,051 in gold. Merchandise and dry goods imported at New York for the week aggregated \$10,470,-

The weekly statement of the associated New York banks, issued Saturday, shows

the following changes: Surplus reserves, decrease ......\$1,018,925

Legal tenders, decrease ...... 730,600 Circulation, increase ...... 765,600 The banks now hold \$28,128,950 in excess of stringency meanwhile paralyzes specula-

the requirements of the 25 per cent. rule. The Financier says: "The gold exports of the week have not affected the weekly showing of the New York banks to any great extent, according to the report made Saturday, but it is nevertheless true that the eight and one-half millions of specie shipment, less about \$1,400,000 received in operations with the interior, must have depleted reserves considerably, and there is reason for believing that next week's averages will reveal a decided falling off in cash holdings. In fact, if the exports of the next few days come up to estimates, the surplus reserve of the banks will go below twenty millions by a fair margin. Against the losses sustained the receipts from the West must, of course, be considered, but as the crop season is at hand, it is only natural to look for a flow of money to interior points for the remainder of this month and September. There is no indication of stringency in this. On the contrary, bankers who have all along predicted higher rates are wondering if they were not too positive in their assertions. It is plain to be seen that the factors now at work in the money market favor a stiffening in quotations. Call money touched per cent. in New York last week, the lowest of the year. The utter stagnation in speculative circles makes demand only nominal, and the rise of \$4,348,300 in the loans of the banks last week appears inconsistent. The explanation is that international operations incident to British loan subscriptions are responsible. The banks, when they subscribe for United States loans, often class their allotments as loans -that is, as loans to the government-and this may have been done indirectly now, but by the borrowings of customers from the banks to pay for their English bonds. The loan expansion caused the rise in deposits, but not to the amount that other operations called for. The loss in cash

There was a rise Saturday in the price of St. Paul & Omaha of 3% points over that of Friday on a single transaction. American Tobacco gained 1%. Republic Steel preferred as much and Pullman 14. Lead preferred lost 74 in addition to Friday's 41/2 point decline, without any news to explain the movement beyond reports of poor business. The common stock fell 1% to the lowest price on record. Sugar advanced a point in the morning, on buying attributed to covering of an important outstanding short account, forced to cover by the operation of a bull pool in the stock. Most of the gain was lost in the late dealings. These comprise the only movements worth individual mention on the day's stock market. The significance of the market continues purely negative, the determined restraint of the speculation marking the waiting for a solution of the many points of uncertainty in the situation. The bank statement conformed pretty closely to expectations, the exports of gold for Saturday, amounting to \$3,250,000, evidently not figuring in the statement. The earlier ex- Am. WALL STREET REVIEW.

credibly reported that tentative arrange-ments have already been made for shipping are made that the total will reach \$10,000,000. This leaves any Paris demand out of consideration, the rise in the Bank of England's bid for gold leaving a doubt whether any inducement remains to ship to France. The market for securities in New York was practically paralyzed last week. Dealings dwindled progressively until, in the latter part of the week, the day's aggregate of shares sold dropped back to figures not reached since the stagnation of January, 1897. There was even less life in the bond market, the daily average sales having fallen considerably below a million dollars at par value. Beyond the slight sagging tendency, which is the natural result of this inanition, there have been no important changes in prices. It would be possible to detail quite a long list of difierent factors, all probably having some thing to do with the stagnation in stocks. But these factors all converge in the money market, and it is there that the index must be watched for, which is to point the direction of emergence from present condi-

United States Rubber.

The week has been important for the developments toward equalization of international money market conditions. As interest rates in New York at present are the cheapest in the world, it follows that the process of equalization will raise rates here while relaxing them eisewhere. The center of greatest tension, as has been evident for some time past, is London, and how great that tension has become was proclaimed to the world by the allotment of over half the new British war loan to American applicants, and the explanation offered to Parliament by the chancellor of the exchequer, that the very moderate encouragement he had received from English financiers had prompted him to accept an offer already made by an Anglo-American house to place half the issue in the United States. That is to say, from purely fiscal considerations, he could place his loan at cheaper interest in the United States than in England.

FRANCE TOOK A HAND. It has transpired during the week that the New York and London bankers who formed the underwriting syndicate had undertaken that \$10,000,000 of the \$25,000,000 allotment to the United States (afterwards raised to \$28,000,000) should be paid for in gold, the Bank of England allowing nine days' interest at 3 per cent. on the gold in transit. In response to this concession by the Bank of England gold engagements were announced to go to London on Wednesday. Then the Bank of England's concession was met by the Bank of France, which renewed its recent offer of interest \$2,500,000 by Thursday's steamer. This de- | was but little calling for comment. Hog prodvelopment was unexpected, as Paris ccts, poultry, eggs, butter and provisions, as seemed to have dropped out of the compe- | well as fruits and vegetables, are being handled tition for gold in London and New York, although the reserves of the Bank of France continue to grow by receipts of Russian gold in payment of Russian government obligations. The Bank of England has therefore advanced its paying price for | merchants are now low and bills are well setgold bars % penny, and for American tled. This, they think, means an early and eagles 1 penny an ounce, leaving its rate of discount unchanged at 4 per cent. as an official minimum on the prospect of relief by gold shipments from New York. As a result \$3,250,000 in gold went to London by Saturday's steamer which would not have | cereals are in good request at the following range gone without the additional inducement offered by the Bank of England. It will thus be seen that the week's events have clearly developed the urgent need of the English money market, which the exchequer planned to relieve by placing a government loan in New York instead of awaiting a rise in London discount rates, which would draw gold automatically. This policy is interfered with by the renewed competition of the Bank of France for gold in New York. The fact that loans have been repaid to the Bank of England to the extent of over \$7,-500,000 shows also that the bank's minimum discount inte has not been closely observed, so that the relief planned for the London money market has not been adequate. The effect in New York has been a hardening | cars. in the tone of the money market. Rates are not quotably changed, but lenders prefer shorter terms for loans. The subtreasury has paid out large

amounts on drafts from the Pacific coast for deposits of Klondike and Australian gold, but the payments for the gold withdrawn and expected have left the banks losers to the government institutions to a large extent. The interior movement of currency still continues in favor of New | York, but the first telegraphic transfer has been made to New Orleans, which foreshadows the interior demand for funds to move the cotton and grain crops. The banks are receiving notes for which application was made some time ago, and the delivery of which has been delayed by the mechanical process of engraving and printing the notes. But whatever the domestic demands may be on the New York money market it is evident that the pressure for credits on foreign money markets for war loans, and the resulting contingency, will keep the price of foreign securities depressed to a level likely to prove attractive to the large American capital now seeking investment. The prospective

WENT DOWN A CENT AND A HALF ON THE CROP REPORT.

Wheat Lost Three-Quarters in Sympathy and Oats Five-Eighths-Provisions Weak at a Decline,

CHICAGO, Aug. 11.-Grain markets folewed the lead of corn to-day. That market was given a solar plexus blow by the government crop report, which was much more favorable than expected, and closed at a decline of 11/2c. Wheat lost %c, chiefly through sympathy, and oats declined %c. Provisions closed 5@124c lower. Sentiment among wheat traders at the

opening of that market was not very pronounced either way, and the opening was rather tame at 76@76%c for September, yesterday's closing price being 76c. There was perhaps some disappointment over the government crop report, which was not so bullish as expected, but this was offset by the continued hot weather and showers in the Northwest, conditions regarded as ex-At New York-Clearings, \$111,413,669; baltremely unfavorable, but another factor made itself felt soon after the opening, a sudden and radical decline in corn. A drop of 1%c was recorded in that market at one At Chicago-Clearings, \$16,684,281; baltime, and the effect of such weakness on a At Philadelphia-Clearings, \$11,376,768; balmarket naturally rather heavy was immediate. Selling was quite heavy for some At St. Louis-Clearings, \$4,724,376; baltime, principally by local traders who had bought wheat yesterday in the belief that the government crop report would show a big falling off in condition, and even after this liquidation ceased the market showed but little signs of recovery. The September Hot, Dull Week and Steady Prices price was hammered down to 751/3c before the selling pressure was removed. There was noticeable country selling at times, and stop-loss orders were received by some commission houses. The close was heavy and had it not been for the Bryan demonagainst 227 last week and 228 a year ago. stration and that of the Red Men the week | Chicago recepits were 230 cars, 24 of conwould have been a record breaker for minimum | tract grade. Aggregate primary receipts

visible supply is expected to show an increase Monday of 1,250,000 bu. Corn was feverish and radically weak. The government crop report was a painful surprise to longs, who had been led to expect much more bullish official figures by the complaints of damage which have been received of late, and liquidation was heavy from the start. There was a general spilling out of long corn, with some selling by local bull leaders, and prices declined very rapidly. The September price finally broke to 37%c, but the demand improved after month. Considerable wheat is coming in and the price had reached that point and toward the close the market became steadier. Country offerings were small. Receipts were 168 cars. September ranged from 37%c to 394c, and closed 14c lower at

Oats were dull for the most part, and showed weakness throughout, the market being influenced almost entirely by the weakness of corn. Business was largely local and of no special importance. Elevator people were the best sellers. Receipts were 437 cars. September ranged from 21% to 22%c, and closed %c lower at 21%c. Provisions were heavy, influenced by the grain markets and by the weakness of hogs. There was very little speculative Hay-No. 1 timothy, \$13@13.50. Inspections-Wheat: No. 2 red, 3 cars; No. 3 interest shown, moderate liquidation being led by the packers. Prices ruled lower from No. 3 white, 3 cars; No. 1 white, 1; No. 3 mixed, 1; No. 3 yellow, 3; No. 2 mixed, 1; No. 4 mixed, 1. \*Oats: No. 3 white, 1 car; No. 2 mixed, the sart. At the close September pork was 121/2c lower at \$11.60; Semptember lard, 5c lower at \$6.671/2, and September ribs, 71/2c Estimated receipts Monday: Wheat, 290 cars; corn, 180 cars; oats, 590 cars, hogs, 30,000 head

ARRIVALS OF CATTLE SOLD AT QUO-TABLY STEADY PRICES.

Hogs Active at About Steady Figures-Sheep and Lambs Quiet-Condition of Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS, Aug. 11.-Cattle-Receipts, 100; shipments there were not many fresh arrivals of cattle and the market was rather quiet, but a good clearance was made on a basis of yesterday's prices. Native steers weighing 1,329 lbs sold at \$5.70, and Western cattle weighing 860 lbs at \$4. The receipts this week show a decrease of only about 200 compared with last week and an increase of 100 over the same week a year ago. Thus far this year the receipts are less than 1,500 smaller than the same period last year. The market opened with a lower tendency, in keeping with reports from other markets, but with continued moderate receipts and a scarcity of choice stock there was a more active trade later, and toward the close of the week all good kinds sold at an advance of at least 10c in prices. Common to medium grades continue plentiful, and with no improvement in the demand it was more or less difficult to transfer the consignments at irregular but generally less satisfactory prices than heretofore this season. There was a very

Texas cattle as high as \$4.35. Quotations: Good to prime steers, 1,350 lbs and Fair to medium steers, 1,350 lbs and Medium to good 900 to 1,100-lb Fair to medium feeding steers... 4.15@4.40 Common to good stockers...... 3.50@4.40 Good to choice helfers..... 4.25@5.00

doubt a larger supply could have been

Fair to medium heifers..... 3.65@4.10 Common to light heifers..... 3.00@3.50 Good to choice cows...... 3.75@4.35 Fair to medium cows...... 3.10@3.60 Common old cows...... 1.75@3.00 Good to choice butcher bulls...... 3.50@3,75 Common to fair bulls...... 2.75@3.35 Hogs-Receipts, 4,000; shipments, 1,000.

rather lower prices on account of the comparatively liberal receipts, but salesmen were not inclined to make any concessions and there were few transactions reported at the start. Later, with a much better demand from local packers and steady competition from shippers, the trading was active and the average market was not preceptibly different from yesterday. There were a few sales, however, that were probably 21/2c lower, and for an extreme heavy hogs sold 21/2c higher. The receipts this week show a slight change compared with last week, and a decrease of 3,500 compared with the same week a year ago. The receipts so far this year are 200,-000 smaller than the same period last year The market this week has been somewhat disappointing, but hardly surprising. Packers for some time have intimated that it would not require a liberal number to fill their wants, and they have all along protested against following any advance in prices. The unfavorable weather for shipping operations had a tendency to make packers more independent this week, and naturally they took advantage of the situation and pounded the market. The results, however, while no doubt in many instances unprofitable to shippers, were in keeping with all other leading markets. Shippers were more liberal buyers than last week on account of the reduction in prices, and probably could have used more had not the risk in shipping been so great. The range in prices at the low time in the week was 15c lower than the high time, and about 10c lower than the opening. Quota-

Good to choice medium and heavy ......\$5.25@5.321/2 Mixed and heavy packing..... 5.20@5.25 Good to choice light weights..... 5.25@5.30 Common to fair light weights... 5.20@5.25 Common to good pigs..... 4.00@5.25 Roughs ......4.75@5.15 Sheep-Receipts light; shipments none.

There was the usual small Saturday's run of sheep and lambs, and the market was quiet with sales usually at steady prices. compared with the way equal kinds sold yesterday. The receipts this week have been more liberal, showing an increase of 500 over last week and fully 300 over the corresponding week a year ago. Thus far this year there is a decrease of nearly 10,000 compared with the same period last year. At the beginning of the week there was little change in prices, possibly on account of the scarcity of good stock, but later in the week the conditions were improved and there was rather an active trade at some advance in values. Good clearances were made at current prices, and the market for the week closed in rather a healthy condition, especially for choice stock. During

Transactions at the Interstate Yards. INTERSTATE STOCKYARDS, INDIAN-APOLIS, Aug. 11.-Cattle-Receipts nominal; shipments none. The supply was light, as usual at this time of week. The opening was firm at steady figures for choice light kinds, for which the indications are good. Common butcher cattle were sluggish and tending lower. The closing

was steady, with all sold. Quotations: Good to prime export steers, 1,350 to 1,500 lbs average......\$5.30@ 5.65 Fair to medium export steers, 1,200 to 1,400 lbs average...... Good to prime butcher steers, 1,100 lbs average..... 4.40@ 4.70 Prime to fancy export cows...... 4.15@ 4.10 Fair to good cows...... 3.40@ Common to medium cows and Hogs-Receipts, 1,000; shipments, 950. The

quality was mostly good. The opening was weak and a shade lower, especially on heavy grades, while lights and pigs were in strong demand at good figures compared with yesterday. The bulk of the sales consisted of mixed and heavy at \$5.27\2005.30, with lights at \$5.321/205.35. The closing was steady, with all sold early. Quotations: Fair to good pigs, 110 to 130 lbs

Good to choice lights..... 5.323/465.35 Fair to good lights...... 5.30 @5.321/2
Good to choice medium and heavy ..... 5,27%@5.30 Mixed and heavy packing..... 5.25 @5.274 Roughs ...... 4.25 @5.00 Sheep-Receipts nominal; shipments none. The supply was mostly of good quality, Henry L. Meyers and Mary Hanrahan

early. Indications favor a steady market for next week. Quotations:
